- 1 a** Read Addie's text about her life in the outback and the school she goes to. Then answer the questions.

Hi, my name's Addie, and I live on a 'station', that's a sheep farm in the central outback of Australia, with my parents and my two younger brothers. The nearest town is Alice Springs, which is more than 300 km away from my home. Two or three times each year everyone meets up in Alice Springs and I travel to school there to see my teachers and classmates for a week. Normally my classroom is the living room on our farm and I take part in my classes on the internet. That sounds strange to you, doesn't it? Now let me explain a bit about my school, the Alice Springs School of the Air. When I started school eight years ago, I had my first lessons over the radio. Each day I had one lesson with my teacher on the radio and lots of homework

to do. My parents helped me with the homework in the beginning; my mum taught me how to read and to write. With the internet, things are a lot easier now. I send my homework by email to my teachers. The online lessons are much more fun than being on the radio and they offer lots of activities with my classmates. We can see each other through a webcam, we have our own students' website and we chat online each day. My parents told me what school was like for them when they were young. They both also grew up in the outback and didn't go to a school building either. They had to send in their homework using the Flying Doctors Services. Can you imagine that, a pilot picking up your homework? The radio classes started in 1951, so my grandparents went to the School of the Air, too. Back then there were often a lot of problems and there was no school for many days. The Alice Springs School of the Air has about 160 students (aged 5 to 14) at the moment and covers an area of 1,300,000 km². So you could say that I go to the "world's largest classroom" – and I'm proud of it. At the moment I'm looking for new friends from all over the world. I'm really interested in other countries and would like to learn about your school life, so please drop me a line. Send in your emails and say hi!

- 1 Where does Addie live?
on a sheep farm in the central outback in Australia
- 2 How far away is the nearest school?
more than 300 km away
- 3 When does she meet her teachers and classmates?
two or three times a year
- 4 How does she contact her teachers and her classmates?
via internet
- 5 How did her parents' teachers get the students' homework?
by the Flying Doctors services
- 6 Why does she go to the "world's largest classroom"?
it covers an area of 1.3 mio km² and 160 students go to her school

- b** Write an email of about 120–150 words to Addie and tell her about a typical day at your school. Write about:

- how long it takes you to get to school
- what lessons you like most/least
- why you would/wouldn't like to go to the School of the Air

Campaign for climate change – a teenager project with a difference

Greta Thunberg first became interested in climate change when she was only eight years old and said she could not understand why no one was really doing anything about it. At age 11, she became depressed and said, "I feel like I am dying inside if I don't protest."

On 20th August 2018, Thunberg, now just 15, decided to start a protest by not going to school after there had been forest fires in Sweden. Because she wanted the Swedish government to do something, she protested by sitting outside the parliament building every day during school hours with the sign *Skolstrejk för klimatet* (school strike* for the climate). She began to gain worldwide attention. She inspired school students globally to take part in student strikes. More than 20,000 students had held strikes in about 270 cities by December 2018.

On 23rd January 2019, Thunberg travelled to a meeting of global leaders in Davos in Switzerland. She told them, "Some people, some companies, some decision makers in particular have known exactly what priceless* values they have been sacrificing* to continue making unimaginable* amounts of money. I think many of you here today belong to that group of people."

Some days later, she warned the global leaders that, "I don't want you to be hopeful. I want you to panic. I want you to feel the fear I feel every day. And then I want you to act. I want you to act as you would in a crisis. I want you to act as if the house was on fire – because it is."

Greta Thunberg has since won many awards for her campaign project to try and stop climate change, and in December 2018, *Time* magazine named Thunberg one of the world's 25 most influential* teenagers of the year.

VOCABULARY: *strike – Streik; priceless – unschätzbar; sacrifice – opfern; unimaginable – unvorstellbar; influential – einflussreich
